INTRODUCTION

Vision

- ▶ We at Brise Socially share a vision: to build a truly decentralized NFT social network and give it back to the community. It's a mission, a journey, and our promise.
- ▶ Welcome to the future of social network, built on the multiple blockchain. This is the first edition Volume 1.
- ▶ Brise Socially is the future of digital assets, through the social network platform.
We believe that NFTs are much more than just an art. On Brise Socially creators can sell their work as NFT in any form like video, image, music, photography, original memes.

- Our aim is to create the platform that pays creators & users what they deserve. Current social networks are following the feudalism concept by using users data & not paying enough to creators.
- **Justice has spoken** now, we introduce the decentralized NFT social network on web3. Brise Socially will leverage blockchain technology to ensure that transactions are secure and safe for all participants. This technology revolves around decentralized data storage that can record transactions between parties in a efficient, trustless, and immutable manner.

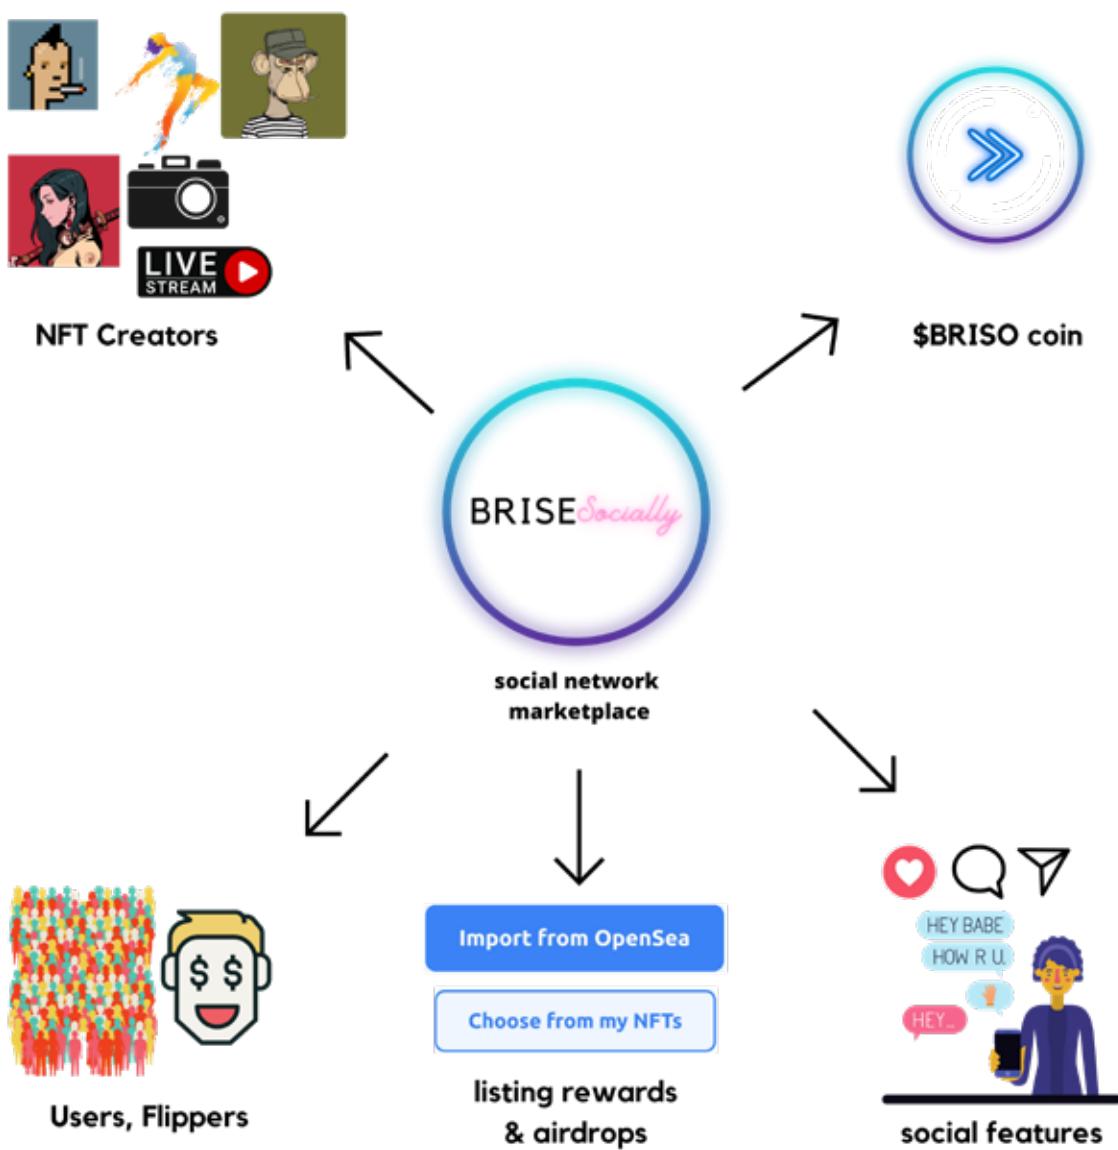

If opensea is amazon of NFTs,
we are going to be the instagram of NFTs.

NO TRACKING, NO DATA PRIVACY VIOLATION.

02

INSIGHT OF Brise Socially ECOSYSTEM.

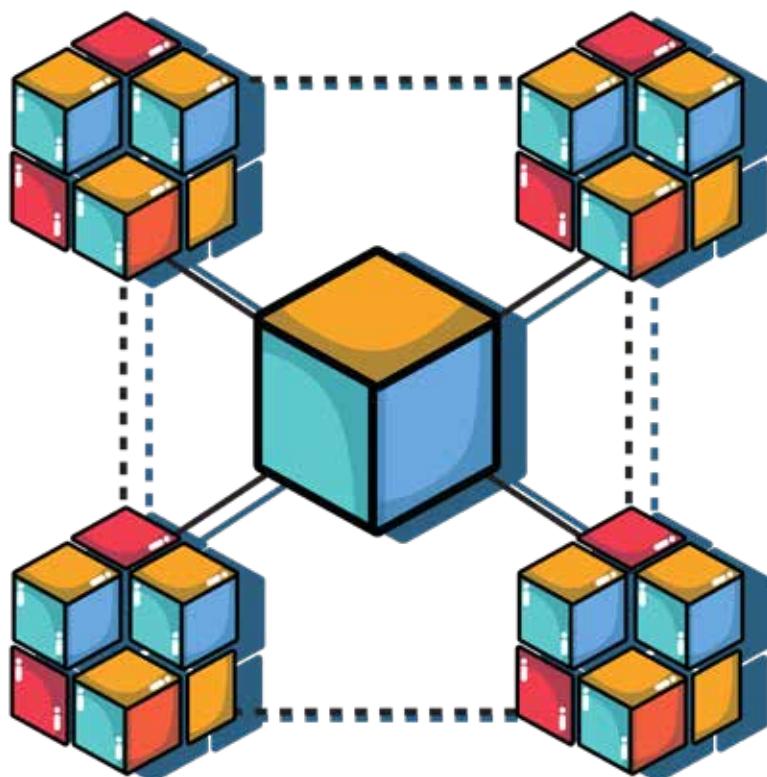

- Brise Socially has been developed to fully integrate with the \$BRISO coin, and has laid out a visionary plan to establish and grow Brise Socially's network value:
- A fully functioning, web-based application where users are able to mint NFTs, sell NFTs, and interact with one another through the robust platform. Users from all domains ranging from Digital Artists, Youtubers, Influencers and the public utilize the platform in a seamless manner. It is important to note here that as we are established on the multi Blockchain, the costs of minting for the users are optimized as compared to minting their works on other Platforms. This aspect highly incentivizes NFT users to migrate towards the Brise Socially Crypto Ecosystem.
- Excitingly, we are actively looking to set the foundation for Brise Socially's smartphone applications in both IOS and Android ecosystems.

03

Brise Socially NETWORK OVERVIEW

Blockchain Protocol

- ▶ The Brise Socially uses the Bitgert blockchain & supports multi chain protocol, with a native token named \$BRISO. It will share the security advantages of the entire Bitgert network, avoiding the possibility of a consensus attack.

Zero platform Fees zero gas fees

- ▶ By leveraging the Bitgert network platform will provide a zero gas - zero platform fees model. To avail that one will have to trade with native \$BRISO coin only.

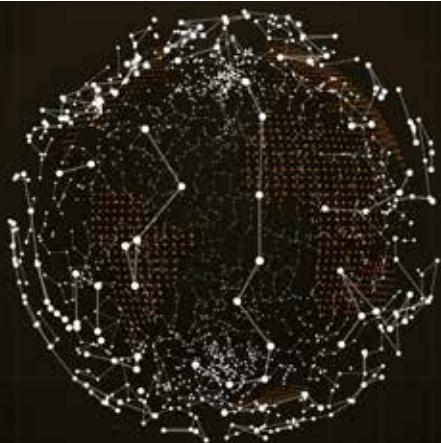

Hurray !!!!!!

**ZERO
PLATFORM,
ZERO GAS FEES**

Decentralized

- Followed by the successful release The platform will eventually become fully decentralized in upcoming months. The Brise Socially Framework is designed to optimize the benefit (and minimize risks) of digital asset ownership and trading. Our core technologies depend strictly on the blockchain, automated smart contracts

Exit to DAO

- The final form we envision for Brise Socially is a Decentralized Autonomous Organization (DAO), where the members of the DAO decide the direction of the project. We believe that what drives the progress of a DAO is not the token price but the consensus of the participants on the project vision. And we will build that consensus.
- After completing the first phase of market construction, we will start to explore and slowly **transfer the leadership and financial control from the team to the hands of DAO**.

Brise Socially NETWORK PLATFORM FEATURES

04

CURRENT FEATURES & OPPORTUNITIES

Lazy & crazy Minting

- Also known as "Just In Time" in the NFT Crypto-sphere, this is a unique functionality live on the Brise Socially platform where the user is able to share and sell their work in a cost optimized way.

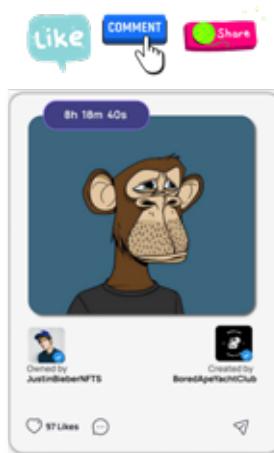

Through advanced techniques, the Bitgert- fastest blockchain in the world allows you to buy & sell NFTs for free using \$BRISO coin.

Like, comment & share

- Brise Socially is a social network marketplace that allows people to use NFT as interactive way. So it becomes more fun than other platforms.

Suppose you wanna make crazy sarcastic comment on NFT bought by a celebrity, now you can with this platform & for that you can earn activity rewards. Just think ..it's crazy.

Import/Export & List NFT's

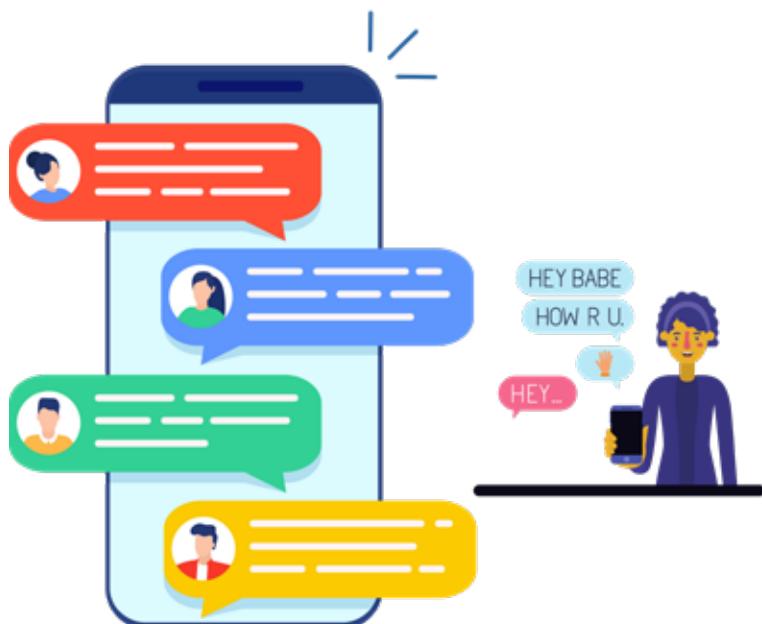

- Non-Fungible Tokens currently minted on Brise Socially have the functionality of being transferred across platforms. With the Import/Export feature, our ever-expanding users can now seamlessly import their NFTs from platforms such as Opensea and Rarible through the "import" feature now available in the user's profile & can also list their NFTs once they have connected with their wallets & earn rewards as \$BRISO coin.

Direct Messaging

When: Estimated Q3 2022

- As a Social Media NFT Platform, Brise Socially's Direct Messaging feature will allow artists and users to engage and interact amongst themselves. This feature acts as a foundation for the public and content creators alike to discuss and develop partnerships should they wish to. Communication and engagement is an important element that Brise Socially is focused on, and Direct Messaging promotes this aspect.

NFT Live®

When: Estimated Q3 2022

- ▶ This is the most anticipated function: it makes it possible to create an NFT Live, and from a telephone or a connected mobile device. The latter can be immediately customized by adding effects (GIF, emoji, filters, etc.). Once on sale, it exists only as an NFT on the Brise Socially platform, making it unique. To make this feature enviable, only certain users can access it (+10K followers on Instagram and/or Twitter in particular). There is a patent pending for this feature.

Brise Socially Stories

When: Estimated Q3 2022

- ▶ Brise Socially Stories is another unique way to promote constant social media engagement for our creators and users alike. This feature allows the public to add stories to their Brise Socially profiles that disappear after 24 hours. With this, creators and users can view who has seen their stories and reach out to community members (who view their stories the most, for example) to discuss collaborations and such related initiatives.

Brise Socially IOS & Android Applications

When: Estimated Q4 2022

- ▶ In order to truly drive mass adoption, Brise Socially is pursuing the avenue of developing the Brise Socially Smartphone application for the Android and IOS Smartphones and Systems. In doing so, users can now seamlessly interact with one another and trade NFTs with a few simple clicks, similar to how they use and interact with applications such as Instagram. With this, new users for Brise Socially will truly be able to monetize their photo uploads as this forms the foundational basis of Brise Socially's true purpose.

05

\$BRISE TOKEN

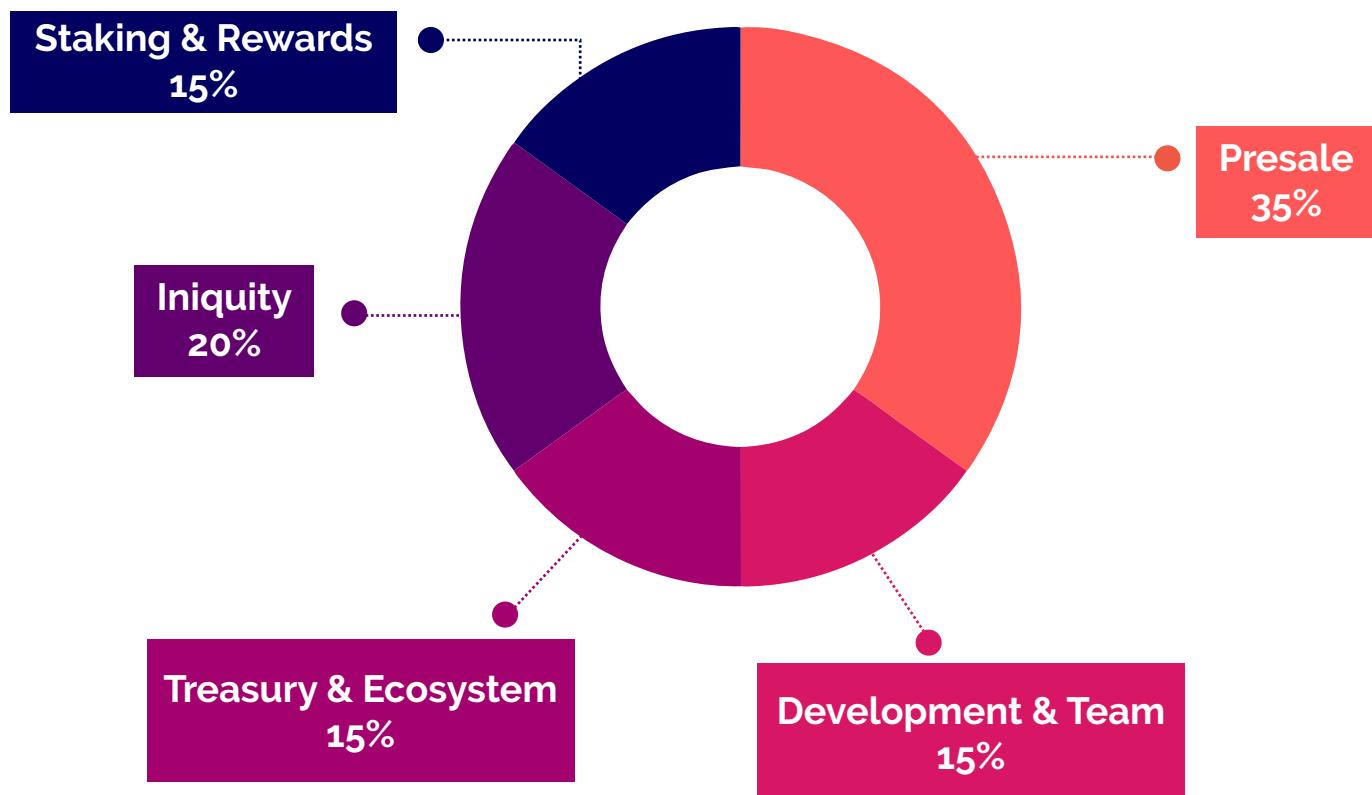

\$BRISE Tokenomics

\$BRISE aims to resolve all the current problem of NFT marketplace with the following tokenomics:

The total supply of 1,000,000,000 \$BRISE tokens will be allocated as the following.

By leveraging the Bitgert network platform will provide a zero gas - zero platform fees model. To avail that one will have to trade with native \$BRISE & BRISE token only.

Presale & Fair Offering

- 350,000,000 (35%) \$BRISO coins will be divided into shares, to raise BRISE. To raise 250B brise.

All users who win the whitelist can claim the \$BRISO Founding Edition NFTs (check the \$BRISO Marketplace section for NFT features). All unsold \$BRISO tokens will be burned directly after the sale.

Transaction fees:

- Exchange listing transaction fee:
 - 6% fee for sellingThere is no token transaction fee for transferring briso token from one wallet to another.

NFT Listing Rewards & Airdrops for opensea users & community

- Among the 15% of \$BRISO (150,000,000) tokens dedicated for staking rewards. All 861,417 users who have traded on OpenSea's smart contract from day 1 to jan 2022 EthereumBlock #13916166 (first block of 2022) are eligible for the airdrop.

Due to technical difficulties, those who bought and sold through other smart contracts are not included.

Rewards are in \$BRISO.

- Only rewards of the last 14 days are available for claim.
You could preview the estimated rewards on the listing popup when setting the listing price for your items.

Liquidity & LP Staking Rewards

- Among 15% share of \$BRISO total supply dedicated to Liquidity Management, 20% of total is used to bootstrap initial liquidity, and the remaining 5% \$BRISO tokens will be used to provide LP staking rewards.

06

ROADMAP

► **Launch Phase - Q2-2022**

Official Website Launch
Contract Deployment
Community development on various Platforms like discord & telegram
\$BRISO coin- Public presale
Beta-social network marketplace
White paper
import/export & listing rewards
CEX & DEX listings

► **Growth Phase - Q3-2022**

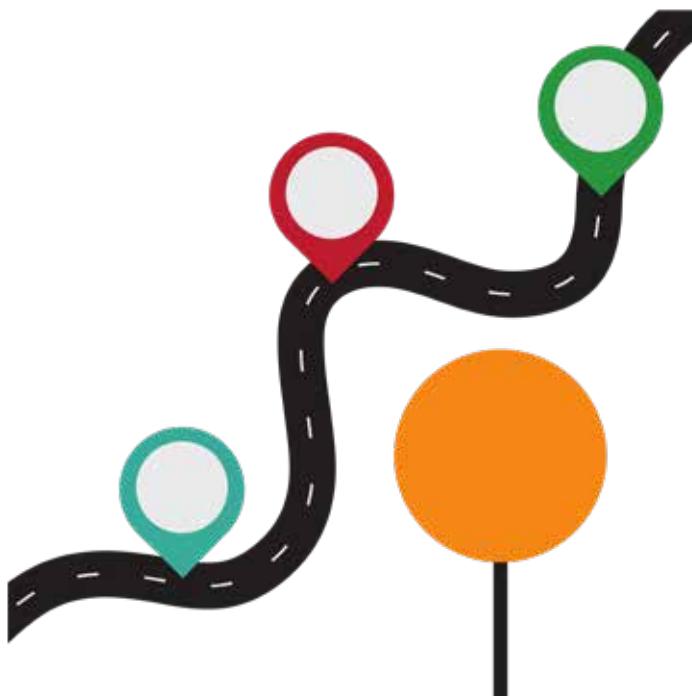

Fully developed social marketplace
Expansion of users & creators
50000 Holders
Features like stories & live streaming.
Influencer Promotions

► **Expansion Phase Q4 - 2022**

Rolling out new features of social marketplace
March towards one million community
100000 Holders
Audit Solutions with Leaderboard Support
Brise Socially decentralized
Media Coverage Promotions

► Booming phase Q1 - 2023

Exponential community & holders growth
ios & Android app
DAOs
Full Decentralization of social marketplace & introducing DAOs
Top celebs joining
World wide marketing campaigns

A Note of Conclusion

Brise Socially is a revolutionary way of integrating social media with Cryptocurrency that will truly revolutionize the way in which users will be able to interact and trade NFTs with one another. As perhaps the only major project to undertake this venture successfully in this new world of NFT + Social Media amalgamation, Brise Socially's promising Pathway is geared towards becoming the Number 1 Social Media NFT Platform in the Blockchain Ecosystem.

Team Brise Socially would like to truly thank our early adopters (users and creators alike) for utilizing and supporting the platform and acting as a foundational basis for its current growth. We equally welcome and encourage new members, users and creators to try our robust product offering that is facing continuous scaling and rapid adoption. With a combined "force" of community strength and the Brise Socially team's focus, much will be achieved in the coming times.

The logo features a large, solid black circle centered on a white background. This black circle is surrounded by a thick, multi-layered ring. The innermost ring is a bright cyan color, followed by a thin white space, then a medium blue ring, another thin white space, and finally an outermost ring that is a darker shade of blue. The text "BRISE" is written in a bold, white, sans-serif font, positioned at the bottom left of the black circle. To the right of "BRISE", the word "Socially" is written in a flowing, pink cursive script.
